Louisiana Board of Ethics

Dear Sir/madam

Re: Ethics Training For Public Servants,

I am a commissioner on the Natchitoches Parish Port. Each year all commissioners are required to complete the one hour Ethics Training course for Public Servants. I am also a member and newly appointed president of the board of directors for the Natchitoches Parish Council on Ageing. The board members as well as the executive director are not required to complete any Ethics Training or follow the rules governing what Public Servants, serving in these capacities are ethically required to do. Was this an oversight or am I missing something. I have been questioned on this matter and I personally would like to know the answer to this question.

Sincerely Yours,

William T. Allen Sr.
